Evaluation approach

- Pre-post approach has been followed to assess the Skill Saathi counselling
- What is pre-post?
 - Change in the outcome of interest before and after program implementation
- Each participant was provided a short questionnaire to answer on the first day (pre/baseline) before counselling commenced, then once again at the end of all sessions on the last day (post/end-line).
- Limitations of pre-post approach
 - No comparison group
 - Change in the outcome of interest may not be attributable to the intervention
